Grading Rationale

Microfinance Capacity Assessment Grade	Chaitanya obtains “M2” as its performance grade which signifies “high capacity of the organization to carry out its activities in a sustainable manner”. The organization has excellent portfolio quality and management system but it has a relatively low capital base. Its loan portfolio is also concentrated in a limited geographical area.
Code of Conduct Assessment Grade	Chaitanya obtains “C2” as its Code of Conduct Assessment Grade which signifies “good performance on COCA dimensions”.

*Comprehensive MFI Grading provides opinion of the Rating Agency on MFI's capacity to carry out its microfinance operations in a sustainable manner and its adherence to Industry code of conduct. MFI Capacity Assessment Grading has been done on the dimensions of **Capital Adequacy, Governance, Management Quality and Risk Management Systems**. Assessment on Code of Conduct has been done on the indicators pertaining to **Transparency, Client Protection, Governance, Recruitment, Client Education, Feedback & Grievance Redressal and Data Sharing**. Some of these indicators have been categorized as Higher Order indicators consisting of indicators on **Integrity and Ethical Behaviour and Sensitive Indicators**.*

Conflict of Interest Declaration

The Rating Agency (including its holding company and wholly owned subsidiaries) has not been involved in any assignment of advisory nature for a period of 12 months preceding the date of the comprehensive grading. None of the employees or the Board members of the Rating agency have been a member of the Board of Directors of the MFI during for a period of 12 months preceding the date of the comprehensive grading.

Section 1: Microfinance Capacity Assessment Grading

Operating Environment

- SMERA estimates the MFI sector to grow at a CAGR of 25%-30% and is expected to touch Rs. 180000 crore by the end of FY2019.
- MFIs have reported an increase of ~27% in total loan outstanding FY2018 as compared to FY2017. SMERA believes seasoned customer profile over multiple loan cycles along with the inclusion of fresh borrowers have helped MFI industry to increase its total loan outstanding.
- The fund flow to the sector has improved on account of increased confidence on MFI sector. Further large MFIs are exploring the route of Non-convertible debentures (NCDs) and Pass through Certificates (PTCs); whereas small –mid size MFIs have an increased access to funds from banks and financial institutions. SMERA believes that the RBI guidelines on co-origination of priority sector loans by NBFCs and banks are significant step towards an efficient framework for micro lending in India. SMERA estimates Rs.25,000-30,000 crore of potential lending every year under this origination mechanism over the medium term.
- Support systems such as Self-Regulatory Organizations (SRO), Credit Information Bureaus (CIB) among others have been established to ensure credit check and process adherence among MFIs. This regulatory framework has brought more accountability and transparency within the sector.
- On the contrary, recent demonetization drive restrained MFIs disbursement and collection process which has moderated microfinance sector growth in FY2016-17 as compared to the previous year. Post demonetization Asset Quality has declined, however it has improved and Portfolio at Risk (PAR) > 30 stood at 2.4% in Q2 FY 18-19.

Reasonable track record of operations and extensive industry experience of promoters

- Chaitanya commenced its microfinance operations in October 2007 at Nayakanahatti village in Chitradurga district for two years as NGO. Later in 2009 Chaitanya obtained a Non-Banking Finance Company (NBFC) license from Reserve Bank of India for a newly registered company, Chaitanya India Fin Credit Private Limited (Chaitanya) and obtained NBFC-MFI licence in the year 2013.
- Chaitanya has six-member on board as on Jan-2018 having extensive experience in the banking and finance segment. The board has two promoter directors, two nominee directors

(representatives from Investors) and two independent directors with banking & finance/Microfinance expertise. The board meets on a quarterly basis and if required frequency of the meeting increases. Among the board members, Mr. Anand Rao and Mr. Samit Shetty are involved in strategic decisions and are actively involved in the day-to-day business operations.

- Mr. Anand Rao with strong understanding of local business and social environment in Karnataka has been involved with an NGO for over 5 years before setting up the NBFC-MFI along with Mr. Samit Shetty who worked with Olam International Limited (A global leader in the supply chain management of agricultural products and food ingredients) for almost a decade.

Diversified resource profile

- As on March 31, 2019 Chaitanya has developed funding relationships with a large number of lenders i.e 28 lenders (including 8 PSU/Private banks) however their resources profile continues to remain concentrated towards borrowings from NBFCs which stood at ~ 52% of total borrowings and 31%, 17% from DFIs and Banks accordingly.
- The cost of funds (COF) for Chaitanya stood comfortable at 13.98% in FY 2019 (as per the provisional financials provided by the management) as compared to 14.50% in the previous year. The relationships with NBFCs have helped chaitanya in meeting its funding requirements to meet the projected growth; however the company has to explore its funding base majorly towards PSU Banks/FIs for reducing its cost of borrowing.
- Leverage of the company has improved to 5.02 times in FY2019, compared to 5.81 times in FY2018.

Comfortable capitalisation and comfortable liquidity profile

- The company's comfortable capitalisation is reflected in the capital adequacy ratio (CAR) of 23.26 per cent as on Mar 31, 2019 as against CAR of 19.03 per cent as on March 31, 2018.
- Total equity capital (including preference share) of Chaitanya has increased to Rs. 78.86 crore as compared to Rs. 49.12 crore in the previous financial year on account of infusion of equity and preference capital and internal accruals.
- The NBFC-MFI has also raised Tier II capital to the extent of Rs. 40.00 crore till Mar 31, 2019. (Rs. 5.00 crore – Northern Arc Capital, Rs. 5.00 crore - Capital First, Rs. 5.00 crore - UC Inclusive Credit Private Limited & Rs. 10.00 crore – MAS Financial Services).
- Chaitanya has also been able to attract one of the renowned investor of the country as an Equity Investor. As discussed with the management, the company is expecting an investment of Rs.150 crore, which is expected by the 2nd Quarter of the current financial year.

- Chaitanya has a comfortable liquidity position due to well matched maturity of assets and liabilities. The tenure of loans is about 12-24 months, whereas the incremental bank funding is typically with tenure of about 12-36 months. However regular flow of funds is critical to maintain the projected growth and the same would have a key bearing on its liquidity profile.

Improvement in operational performance in FY2019

- Chaitanya has reported net profit of Rs. 7.28 crore on operating income of Rs. 110.48 crore in FY2019 (as per the provisional financials provided by the management). In FY2018, Chaitanya had reported net loss of Rs.8.00 crore on operating income of Rs.76.39 crore in the previous year.
- As on Mar 31 2019, the Chaitanya has an outstanding loan portfolio of Rs.571.80 crore spread over 176 branches of 4 states with about 3,39,572 borrowers. The companies' portfolio outstanding witnessed a growth of ~60% in FY2019 over the previous year.
- The operational self-sufficiency (OSS) of the company improved to 111.60% in FY2019 as compared to 88.79% in the previous year. The company's operating expense stood moderately high at 10.58% in FY2019.

Moderate Geographical Reach

- Chaitanya's operations concentrated in 04 states i.e Karnataka, Maharashtra, Bihar and Uttar Pradesh. As on March 31, 2019, Chaitanya's portfolio is concentrated in the state of Karnataka accounting for ~ 70 percent, and ~ 30 percent in other three states i.e. Maharashtra, Bihar and Uttar Pradesh.

Uttar Pradesh	4	1,152	1.80	0.00	0.31
Total	176	3,39,572	571.8	2.40	100.00

- As discussed with the management, the company is trying to expand its portfolio in the states like Jharkhand, Uttar Pradesh and Chhattisgarh while improving portfolio diversity.

Sound asset quality

- Chaitanya has maintained sound asset quality with on-time repayment rate of 97.18% as on March 31, 2019.

Period	FY 2016	FY 2017	FY 2018	FY 2019

- The PAR 0-30 days stood at 0.40% as on March 31, 2019 as compared to 0.17% as on March 31, 2018. The PAR >30 days stood at 2.42 % as on March 31, 2019 as compared to 6.00 % as on March 31, 2018.
- Adequate credit appraisal processes, monitoring and risk management mechanisms have supported the company to keep asset quality indicators under control.

Adequate IT Systems Audit Mechanism

- Chaitanya's management information system (MIS) and Information Technology (IT) infrastructure is adequate for its current scale of operations. It has dedicated MIS and IT team at Head Office to ensure smooth flow of operational data between Head Office and branches. It uses customized software " MIFOS-X", developed by the Grameen Foundation and currently managed by Conflux Technologies. It has custom built Credit Risk Management Software that assists in credit assessment for JLG loans. The current system is robust has enabled the Head Office to access to access comprehensive microfinance solutions.
- The company has also introduced app-based MIS software to enable real-time tracking of micro finance activities and also planned to introduce cashless collection system at a pilot-phase.
- Chaitanya has also a dedicated internal audit team to undertake branch and borrower audit at an interval of one month.

Inherent risk prevalent in the microfinance sector

- Chaitanya's business risk profile remain susceptible to socio-political risk, regulatory and legislative risks, along with the inherent risk exist such as unsecured nature of lending, vulnerable customer profile and exposure to vagaries of political situation in the area of operation.

COCA Methodology

The Code of Conduct Assessment (COCA) tool was developed as a response to the need expressed in a meeting of stakeholders in Indian microfinance by the Small Industries Development Bank of India (SIDBI) and the World Bank in December 2009. The code of conduct dimensions were identified by reviewing the various norms for ethical finance. These included RBI's fair practices guidelines for Non Banking Financial Companies, industry code of conduct (Sadhan-MFIN) and Smart Campaign's Client Protection Principles (CPP).

In 2016, need was felt to harmonize COCA to the most recent industry code of conduct and to standardize COCA tools of different rating/assessment agencies. This grading is based on the harmonized COCA tool. In the harmonized COCA tool, the dimensions were classified in three categories – highest order, higher order and building blocks. This grading is based on the harmonized COCA tool.

Highest Order

Methodology

The Code of Conduct exercise is spread over four to eight days. The first day is spent at the head office. The assessment team visits the branches over the next three to eight days. Depending upon the size and the operational area of the MFI, eight to fifteen branches and between 120 and 300 clients are sampled for primary survey (except in cases where number of branches in an MFI is less than eight).

Sampling guidelines

The following is taken as the guideline to determine the sample size for a COCA exercise.

MFI Size	No. of branches to be visited	No. of borrowers to be visited
Small MFI (Less than 8 branches)	All branches	15 clients per branch covering minimum two centers.
Small / Mid-size MFI (up to 2,50,000 borrowers)	8 – 10 branches (geographically distributed)	120-150 clients (15 clients per branch covering minimum two centers).
Large MFI (>2,50,000 borrowers)	12 – 15 branches (geographically distributed)	240-300 clients (20 clients per branch covering minimum two centers).
Large MFI (>2,50,000 borrowers) and having gross loan portfolio (GLP) > Rs 500 crore	18 – 20 branches (geographically distributed)	360-400 clients (20 clients per branch covering minimum two centers).

Code of Conduct Assessment exercise requires:

1. Discussions with key staff members and the senior management at the head office. particularly the senior operational management team as well as the human resources team. These discussions focus on key issues of the code of conduct identified above.
2. Review of policy documents and manuals at the head office. These are reviewed in order to assess the policy as well as documentation regarding important aspects of the code of conduct. The last audited financial statements will also be required.
3. Sampling of branches at the head office. The assessment team samples branches for review. The branches are chosen in across different states in case the MFI operates in more than one state. Care is exercised to include older branches as well as branches that are distant from the head office or the regional office. The sampling of the branches is performed at the head office of the MFI.
4. Discussions with the branch staff at the branch office. Discussions with branch managers and the field staff is carried out to assess their understanding of the key code of conduct principles.
5. Sampling of respondents in the selected branches. A judgmental sampling is performed on the MFI's clients by the assessment team to draw respondents from the interest group, in order to maximize the likelihood that instances of non-adherence can be detected.
6. Interview with the clients. Information from the clients is collected ideally during the group meetings. If this is not possible, visits are made to the clients' locations for collecting information.
7. Review of loan files at the branch office. This review focuses on loan appraisal performed before disbursing loans as well as the documents collected from the clients.

As part of this assessment, we visited two branches of the MFI. The details of the branches visited are provided below.
